

Aidan Oliver Kinnisten

akinnist@purdue.edu | Columbus, OH | aidankinnisten.me | linkedin.com/in/aidan-kinnisten

EDUCATION

Purdue University

West Lafayette, IN

Bachelor of Science in Computer Science (Machine Intelligence Track)

Expected May 2029

- Relevant Coursework: Object-Oriented Programming, Discrete Mathematics, Programming in C, Computer Architecture, Systems Programming, Multivariate Calculus

RELEVANT EXPERIENCE

AI Intelligence & Innovation Intern

May 2026 – August 2026

Found Search Marketing

Fishers, IN

- Built and implemented **AI-driven workflow** solutions to increase workflow, automating repetitive manual tasks, streamlining communication, and supporting productivity throughout the company
- Collaborated with employees to identify operational concerns, developing practical automation-based solutions
- Developed projects and tools for a company of over **50 people** to increase workflows with services for over **1K clients**; learning the fundamentals of marketing

Founder & Lead Game Designer

July 2020 – September 2025

Roblox Game, Bunny's Funeral

Columbus, OH

- Founded and led the development of a puzzle-horror game on Roblox, architecting scalable systems for experiences reaching **70M+** players and generating over **\$20K in gross revenue**
- Organized game server infrastructure for supporting up to **42K+ concurrent users** and **30M+ total views**
- Built core gameplay infrastructure through the design of UI/UX, 3D modeling, and animation
- Optimized player experience and retention through iterative feature design and **performance improvements**

TECHNICAL PROJECTS

Landing Page Builder | *JavaScript, React, Tailwind CSS*

June 2026 – August 2026

- Constructed an **internal form-builder tool**, replacing SaaS tools and providing an alternative software for a company, reducing the amount of monthly subscriptions
- Maintained full control over **lead data**, webhook routing using third party services, and page branding through extensive customization and control for administrators

Launchpad - Schedule Generator | *Flutter, Dart, Firebase*

October 2025 – January 2026

- Developed a mobile scheduling app that tracks for availability within user schedules and recommends open time slots for events
- Built Flutter UI components and integrated Firebase for authentication and utilizing real-time tracking
- Collaborated with mentors to refine app architecture and enhance the user experience

Reservation Manager | *Java, Thread Safety, UI/UX*

November 2025 – February 2026

- Led a team project to build a **multi-client reservation** system for a fictional movie theater
- Engineered using **thread-safe reservation logic**, an interactive GUI with **data persistence** for managing seating

SKILLS & ACHIEVEMENTS

Languages: Java, C, Python, JavaScript, Lua, HTML/CSS

Frameworks/Tools: Blender, React, Node.js, Linux, Git, VS Code, IntelliJ, Eclipse

Awards: Developer Crown (Roblox), surpassing over 1M monthly active users

LEADERSHIP & INVOLVEMENT

Chapter Secretary

August 2025 – Present

Pi Kappa Phi Fraternity, Omega Chapter

- Strengthened leadership skills by maintaining records and documentation of a **150-member organization**
- Supported fraternity service initiatives through **The Ability Experience**, volunteering and contributing to fundraisers and events to support individuals with disabilities
